# SOLUTIONS FOR MOBILE PRINTING AND TICKETING

Electronic citation solutions from Zebra provide law enforcement, parking and code enforcement personnel a solid and measureable financial payback with the ability to print parking tickets, traffic violations, and other citations. With on-the-spot electronic citations, there's no writing by hand, which can mean a large reduction in data entry, postage, and processing costs. Plus, printed citations are durable and legible without handwritten errors that can create an unenforceable ticket. Fines are more likely to hold up in court, more likely to be paid, and are faster and easier for officers to issue.

#### E-citation solutions from Zebra are ideal for:

- Parking violations
- Moving violations
- Violations of local ordinances
- Parking passes
- Receipts for parking fees

Printed citations—produced by a rugged Zebra® mobile printer, Zebra's high-quality receipt paper, and a handheld terminal or mobile device as a complete system—effectively replace handwritten tickets. Printed citations eliminate the cost, delay and errors associated with manual data entry. Citations are clearly printed and contain important information such as the reason for the citation, remittance information and other crucial data.

#### Faster to Issue

Printed citations drastically reduce the amount of time it takes to issue a citation. This increases the number of citations that can be issued during a shift and makes it faster to issue multiple citations to a single defendant.

#### Citations More Likely to be Paid

Printed citations are more legible and accurate than handwritten citations and are more likely to hold up in court. Plus, citations can be pre-printed with remittance instructions, courthouse locations, and other information that makes paying the citation easier for the defendant.

#### Lower Processing Costs

Since the citations are created electronically, administrative processes are streamlined. This means the data entry costs related to handwritten citations are eliminated.

#### Increase Officer Safety

Electronic citations decrease the amount of time the officer is out of the patrol car, which reduces the chance of being struck by a moving vehicle. Zebra's e-citation solutions are easy to use and allow officers to focus more attention on the offender—rather than the ticket pad.

# RELIABILITY ON DEMAND

Zebra's rugged printers provide the foundation for an easy-to-use mobile e-citation system. Wireless connectivity, such as Bluetooth® or 802.11, allow for protected transfer of information between the Zebra printer and the handheld terminal or mobile device.

## Durable and Long Lasting

- High-performance battery technology lasts more than eight hours on a single charge
- IP-rated printers for dust- and water-resistance
- Designed to withstand the elements and even drops to the ground

## Point-of-Transaction Flexibility

- Optional magnetic stripe and EMV™-certified smart card readers
- Range of accessories to suit every application

## Accessories to Fit Every Need

Zebra's mobile printers are designed to move with you. Whether worn with a strap or mounted in a vehicle, Zebra printing solutions won't slow you down.

## In-Vehicle Options

Vehicle cradles and mounts allow for docking, charging, and convenient storage of the printer while on the move.

## Batteries

Zebra backup and replacement batteries ensure your Zebra mobile printer always has the power it needs. Zebra batteries offer high power-to-volume and power-to-weight features.

## RW 420 Battery Eliminator

If you leave and use your printer in the cab—fixed-mounted and powered by your vehicle's power source—Zebra's RW 420 Battery Eliminator reduces the cost of owning the RW 420 printer both initially and over the course of its life.

## Zebra RW™ Series

Designed to be road warriors, Zebra's RW series mobile printers offer incredible durability and ease of use. These versatile printers allow for quick and efficient printing of tickets and fines while withstanding harsh weather or even multiple falls from as high as 6 feet. Available in 2"/50 mm and 4"/102 mm print widths, and 203 dpi print resolution.

## Zebra RW 420™ Print Station

With built-in RW 420 mobile printer and support for a Motorola® MC70/MC75 or MC55/MC65 removable mobile computer, the RW 420 Print Station allows easy data entry and printing and simultaneous charging of several devices. Officers can carry fewer devices and make fewer trips to the vehicle.

## Zebra P4T™ Printer

Zebra's P4T thermal transfer mobile printer is ideal for creating citations that withstand harsh environments and offer exceptional paper durability. The P4T produces citations up to 4"/102 mm wide.

# GENUINE ZEBRA™ SUPPLIES

**Zebra is one of the largest producers of thermal media for use in printers in North America. We use inks, varnishes, tooling, equipment and inspection techniques specifically suited for the special requirements of thermal materials.**

Zebra is also ISO 9001:2000 certified. We have consistent processes in place to ensure the creation of finished products that deliver high customer satisfaction. Just like our printers, Zebra supplies give you reliable and quality performance.

## ZebraCare™

### ZebraCare™ Service Agreements

Reduce the cost of printer downtime due to lost productivity and unbudgeted repair costs by selecting a ZebraCare Depot service agreement.

#### ZebraCare service agreements allow you to:

- Plan and budget annual service needs.
- Reduce the soft costs associated with out-of-service printers, and increase uptime.
- Choose the service option right for your company.

Selecting the best thermal receipt paper for your citations is essential. While they look similar, the chemical make-up of each receipt material affects its resistance to moisture, heat and other external factors. The thickness of the paper and the lifespan of images printed on it also vary. All of these attributes are very important to consider to ensure documents remain intact and readable during their useful life. Citations can be pre-printed on both sides with a police department logo, court appearance instructions, fine remittance instructions, and other useful information to help assure payment—and cut costs.

### Z-Perform 1000D™ Receipt

This bright white, smooth paper facestock provides the optimal balance between performance and price. Z-Perform 1000D is direct thermal, uncoated receipt paper that provides an ideal solution for direct thermal paper applications requiring limited durability.

### Z-Select 4000D™ / 4000T™ Receipt

This premium, bright white, ultra-smooth paper facestock is specially coated to provide optimal image quality. Available as either thermal transfer or direct thermal, Z-Select 4000D and 4000T are coated receipt papers that are ideal for high-speed printing applications where print quality is important.

### 8000D High-Temp Receipt

For parking applications in high temperatures or where sun exposure can be an issue, Zebra's 8000D High-Temp Receipt paper offers a great alternative to standard receipt papers. This white, coated receipt paper provides temperature resistance up to 194° F/90° C.

### PolyPro™ 4000D Receipt

Zebra's white, matte polypropylene facestock provides excellent print quality and good scratch and smear resistance. This synthetic, direct thermal receipt paper is recommended for outdoor applications. It stands up to rain, is tear resistant, and is UV-coated to maximize its weather resistance.
